

## **UNIPOWER BATTERY RECYCLING PROGRAM**

1. Separate batteries by type (lead-acid, NiCad, alkaline, etc).
2. Pack in boxes by type. Limit weight per box to 35 – 40 pounds each.
3. Make sure the battery terminals are protected from shorting.
4. Call Unipower to obtain an RGA (return goods authorization) number.
5. Ship the best way (pre-paid) to:

**Unipower Corp  
1216 W 96<sup>th</sup> Street  
Minneapolis, MN 55431  
ATTN: RGA #**

Lead acid batteries may be disposed of locally at any salvage facility that handles automotive batteries. This would save the expense of shipping lead acid batteries to Minneapolis.

Unipower will, at no cost to its customers, properly recycle/dispose of our customer's discarded batteries. Unipower is licensed by the required governmental agencies to handle batteries for recycling/disposal.
